The possible effect of the terms of issuance on the shareholders equity of holders of preferred shares, possible dilution of shareholding, and effect on the equity of current shareholders.				

Note 1: Preferred shares include publicly offered and privately placed preferred shares. Publicly offered preferred shares are those that have been effectively registered (or approved) by the FSC; privately placed preferred shares are those that have been approved by a resolution of the board of directors.

Note 2: Adjust the number of columns according to the actual number of issues.

Note 3: If it is a private placement, the fact that it is a private placement should be prominently indicated.

Note 4: The information for the current year should be that as of the date of publication of the annual report.

Note 5: For preferred shares with warrants, additionally complete the table below.
