Article 1

These Regulations are adopted pursuant to Article 10, paragraph 1 of the Securities Investment Trust and Consulting Act ("the SITC Act").

Article 2

These Regulations apply to a securities investment trust enterprise (SITE) that publicly offers and sells a securities investment trust fund and issues beneficial interest certificates.

When a SITE makes a public offering of a fund only in foreign countries and for investment in foreign securities, the laws and regulations of the place where the offering is made shall apply, and these Regulations do not apply.

Chapter II Public Offering Procedure for Funds

Article 3

The Financial Supervisory Commission (FSC) shall employ either the application for approval system or the filing for effective registration system to review the public offering and issuance of securities investment trust funds.

Article 4

Under any of the circumstances listed below, the FSC may reject or deny approval of a SITE's application (or filing for effective registration) to publicly offer, or make a follow-on offering of, a securities investment trust fund:

1. Application or filing particulars violate acts or regulations, affecting the public offering or follow-on offering of the securities investment trust fund.
2. A SITE applies (or registers) to publicly offer, or make a follow-on offering of, a securities investment trust fund within 3 months from the date on which it receives notification from the FSC that an application (or registration) is rejected, denied approval, voided, or revoked, or on which it withdrew an application (or registration) at its own discretion.
3. An application (or registration) already submitted to the FSC has not yet been approved (or become effective).
4. Based on the SITE's application (or registration) documents, there is factual proof of inability to carry out the issuance plan.
5. A material matter in the plan for the current securities investment trust fund public offering or follow-on offering was not placed on the agenda, raised at a board meeting for discussion, and passed by resolution.
6. The submitted application (or registration) documents are not submitted in full or do not furnish all the required particulars, and supplementation cannot be submitted in full prior to the deadline set by the FSC.
7. A financial report of the SITE or of a securities investment trust fund it manages has not been prepared in accordance with relevant acts and regulations or generally accepted accounting principles, and the circumstances are serious.
8. The design or implementation of its internal control system is materially deficient.
9. In the most recent period, net worth per share was lower than par value. However, this restriction does not apply where fewer than 2 full fiscal years have elapsed since the SITE business license was acquired.
10. The FSC has, pursuant to the SITC Act, suspended acceptance of its applications (or registrations) to publicly offer securities investment trust funds, and the suspension period has not yet expired.
11. The securities investment trust fund currently to be publicly offered is not adequately segregated from existing security investment trust funds in terms of basic investment policy or scope, or its investment instruments are clearly inappropriate.
12. There has been a serious violation of securities acts and regulations or a securities investment trust contract.
13. Within the past year, any error, omission, misrepresentation, or non-disclosure of a serious nature is discovered regarding an already-approved or effectively registered case for a public offering or follow-on offering of a securities investment trust fund for which a declaration was previously submitted to the FSC stating that the application (registration) documentation was correct and complete.
14. The FSC believes for some other reason that [rejection or denial of approval] is needed to protect the public interest.

Article 5

In addition to applying the provisions of the preceding article, the FSC may also reject or deny approval to an application (filing) by a SITE for a securities investment trust fund to be invested in foreign securities where any of the circumstances listed below exist:

1. In the most recent year, a warning or more serious disposition was imposed under Article 66 of the Securities and Exchange Act, or Article 103 of the SITC Act, provided that this restriction shall not apply where the circumstances of the violation have been specifically corrected and the correction has been recognized by the FSC.
2. The applicant (or registrant) lacks the ability to research and invest in foreign securities markets and has not acquired global investment skills by establishing a cooperative relationship with a foreign investment consulting enterprise with an eye to enhancing its investment capabilities.
3. In the most recent year, a securities investment trust fund recommendation was made that involved conjecture regarding New Taiwan Dollar exchange rate trends.

Article 6

If a SITE applies (registers) to publicly offer, or make a follow-on offering of, a securities investment trust fund, and during the period between submission of its application (or registration) to the FSC and the time of application approval or effective registration, its financial or business status undergoes a material change or there is a change in the content of its application (or registration) documentation that has a material effect on the issuance plan, the SITE shall report it to the FSC within 2 days of the date of occurrence of the fact, and shall engage either a lawyer or certified public accountant (CPA), depending on the nature of the matter, to provide an opinion regarding its impact on the current offering plan, which it shall then file with the FSC.

Article 7

Within 1 month after a SITE's business license is approved and issued, unless it is an other-industry enterprise concurrently conducting securities investment trust business, it shall apply to publicly offer a securities investment trust fund that complies with the following provisions:

1. It is a domestically offered and domestically invested equity-type securities investment trust fund or balanced securities investment trust fund.
2. Where the securities investment trust fund is of the closed-end type, the minimum funding requirement for establishment is NT\$2 billion; where it is an open-end type securities investment trust fund, the minimum funding requirement is NT\$3 billion.
3. For a closed-end securities investment trust fund, the beneficial interest unit dispersion standard shall comply with the provisions of the Taiwan Stock Exchange Corporation Rules for Review of Securities Listings.
4. For an open-ended securities investment trust fund, beneficiaries may not commence application for redemption until 6 months after the date on which the fund was established.

The offering of the securities investment trust fund of the preceding paragraph shall commence within 6 months from the date on which the approval letter is received, and the fund shall be established within 45

days thereafter.

After submitting an application (or filing) to offer a securities investment trust fund and obtaining application approval (or effective registration), in addition to abiding by the provisions of the two preceding paragraphs, the SITE shall also commence the offering within 6 months after the date on which it receives written notification of approval or effective registration, and establish the fund within 30 days thereafter, provided that if for a legitimate reason the SITE is unable to commence the offering within 6 months, prior to the deadline it may apply to the FSC for a one-time extension not to exceed 6 months.

Article 8

After a SITE has obtained application approval or effective registration for the public offering of a securities investment trust fund, except as otherwise provided by the FSC, it may carry out a follow-on offering if for the 5 business days preceding the application (or registration) date, the average ratio of the number of units already issued to the number of units to be issued under the original application approval or effective registration is 80 percent or higher.

Article 9

Before a securities investment trust fund is established, beneficial interest certificates may not be issued; a SITE shall produce beneficial interest certificates and deliver them to subscribers within 30 days from the date on which the securities investment trust fund is established.

Beneficial interest certificates may be issued in scripless form and delivered by book-entry transfer.

When a SITE's approval or effective registration is voided or revoked, it shall handle the relevant matters as stipulated in the securities investment trust contract.

Article 11

The application approval or effective registration of a SITE's public offering, or follow-on offering, of a securities investment trust fund may not be cited in publicity as verification of its application (or

registration) particulars, or as a guarantee of the value of the securities investment trust fund.

Article 12

, A SITE may not commence a public offering or follow-on offering of a securities investment trust fund until it has filed for effective registration by submitting to the FSC a filing furnishing the required particulars together with the required documents. If the public offering or follow-on offering in a filing for effective registration under paragraph 1 involves inward or outward remittance of funds, or the fund is a money market securities investment trust fund, the SITE shall obtain a letter of consent from the Central Bank before it may conduct the offering.
