Title :	Regulations Governing Derivatives Transactions Conducted by Insurance Companies 
Date :	2014.12.24
Legislative :	Amended on 24 December 2014 per Order Ref. Jin-Kuan-Bao-Tsai 10302509851 of the Financial Supervisory Commission.
Content :	<p>Article 1</p> <p>These Regulations are formulated in accordance with the provisions of Paragraph 8 of Article 146 of the Insurance Act (hereinafter referred to as the "Act").</p> <p>Article 2</p> <p>The terms used in the Regulations are defined as follows:</p> <ol style="list-style-type: none">1. "Derivatives transactions" mean "transactions for hedging purpose" , "transactions for enhancing the investment efficiency" , or "transactions of structured products" .2. "Transactions for hedging purpose" mean derivatives transactions which comply with the following provisions:<ol style="list-style-type: none">(1) The hedged item is in existence and exposes the insurance company ("insurer") to identifiable risk of loss;(2) The hedging derivatives transactions may reduce the risk of the hedged item and are specified for hedging the aforesaid item; and(3) When conducting the hedging transactions, where the underlying instrument of the hedging derivatives is different from the hedged item, such instrument and the hedged item shall be specified in a formal document, with a statement certifying the high correlation between them.3. "A hedged item" means an existing investment position or an anticipated investment position. An anticipated investment position, in particular, can include the following:<ol style="list-style-type: none">(1) An anticipated reinvestment position of the principal of an existing investment position that will reach maturity within the coming year and the incurred interest;(2) An anticipated investment position of cash flow expected to go on within the coming year from sold insurance policies.4. "Risk of a hedged item" means the price, interest rate, exchange rate, and credit, among other things, of the hedged item.5. "High correlativity" means that with all the transaction records of the past three months or more as samples, the correlation coefficient with regard to the rate-of-change of price or rate of return between the underlying instrument of the hedging derivatives or the portfolio thereof is equivalent to 70% or above.6. "Transactions for enhancing the investment efficiency" mean those with purposes other than hedging and investing in structured products.7. "Value-at-risk calculation of positions relevant to transactions for enhancing the investment efficiency" means that 10-day 99% VAR for the above position is required to be calculated either on a weekly basis for at

least three years period or on a daily basis for at least one year period. On top of that, the aforesaid data shall be updated on a weekly basis and back testing of the above VAR shall be performed on a monthly basis.

8. "Transactions of structured products" mean transactions of portfolios combining fixed-income instruments and derivatives issued or guaranteed by financial institutions.

9. "Aggregate nominal value" means the value calculated in accordance with the following requirements:

(1) In option contracts, it is the sum of products of the exercise price multiplied by the theoretical hedging ratio and the total number of open-interest positions.

(2) In interest rate swap contracts, it is the sum of products of the nominal principal of hedged item multiplied by the theoretical hedging ratio.

(3) In leveraged derivatives contracts, it is the sum of products of the nominal principal in the contract multiplied by the leverage.

(4) For derivative contracts other than those mentioned in the preceding three items, it is the sum of the contract value or the nominal principal.

10. "Foreign credit rating agencies" mean Moody's Investors Service, Standard & Poor's Corp. and Fitch Ratings Ltd.

Article 3

An insurer which intends to engage in the derivatives transactions for hedging purpose with hedged items being existing investment positions, shall submit an application together with the following documents to the competent authority for prior approval:

1. Statement of law compliance;
2. Documents of authorization by the board of directors (governors) or other proper personnel;
3. Documents of proving that the personnel in charge of the aforementioned derivatives transactions have relevant working experience or specialized training;
4. Procedures for processing derivatives transactions; and
5. Important policies and procedures governing derivatives transactions and risk management.

Any addition or change to the documents specified in Subparagraphs 2 to 5 of the preceding Paragraph shall be reported to the competent authority for reference purpose.

Article 4

An insurer meeting the following eligibility criteria and approved by the competent authority in accordance with the requirements of Paragraph 2 may engage in derivative transactions for hedging purposes with hedged items being anticipated investment positions:

1. Eligibility criteria indicated in Article 5 Paragraph 1; and
2. Approval from the competent authority in accordance with the requirements in Article 5 Paragraph 2 for engaging in derivatives transactions for enhancing the investment efficiency.

When an insurer intends to engage in the derivatives transactions for hedging purposes with hedged items being anticipated investment positions, approval of the board of directors shall be obtained and the application form along with the following documents shall be submitted in advance to

the competent authority for approval:

1. Supporting documents for meeting the eligibility criteria in the preceding paragraph;
2. Documents listed in Article 3 Paragraph 1 ; and
3. Descriptions of the levels of influence of the following different factors on hedging effectiveness that can be specifically distinguished using the mathematical method for calculating the hedging effectiveness:
 - (1) Influence of expected differences in the execution of portfolio asset allocation plans indicated in Paragraph 3 Subparagraph 1; and
 - (2) Other factors than those indicated in the preceding item.

An insurer approved by the competent authority to engage in derivatives transactions for hedging purposes in accordance with the requirements in the preceding paragraph shall follow the requirements below:

1. It shall detail specific asset allocation plans for the expected portfolio and analysis of hedging effectiveness in official written documents before transactions; the said analysis of hedging effectiveness shall be reviewed by a risk management unit independent of the transaction department.
2. When the hedging effectiveness obtained for the expected portfolio differs from that for the actual portfolio by 20% or more, as a result of the difference in the implementation of the asset allocation plan for the expected portfolio as mentioned in the preceding subparagraph, the value of transactions for the effective periods of respective transactions shall be included as part of the limits for derivatives transactions for enhancing the investment efficiency.

Article 5

An insurer with the following qualifications and get approved from the competent authority may engage in the derivatives transactions for enhancing the investment efficiency:

1. The insurer's risk-based capital ratio is equivalent to 250% or above;
2. The value-at-risk calculation is performed every day to measure and manage the risk exposure of derivatives positions;
3. In the immediately preceding year, there are no major violations of performing the insurer's internal control procedure with regard to the use of funds, or the rectification of such violations have been done and get affirmed by the competent authorities;
4. Having not been subject to major sanction/penalty or cumulative fines of more than NTD 3 million by the competent authority in the immediately preceding year, or the rectification of such violations have been done and get affirmed by the competent authorities; and
5. Other eligible qualifications required by the competent authority.

An insurer intending to engage in the derivatives transactions for enhancing the investment efficiency shall submit the trading proposal which has got approved by the board of directors, together with the application form and the documents in support of the qualification provided in the first Paragraph of this article to the competent authority for getting a prior approval. The trading proposal shall record forth the following information:

1. Types of derivatives;
2. Restrictions on manipulation of derivatives;

3. The objects of investment efficiency enhancement and the way to assess its performance;
4. Mechanism with regard to risk-limit management, including the limit on total position, stop-loss strategies and the frequency of assessment etc. Where the trading proposal mentioned in the preceding Paragraph is amended and get approved by the board of directors, it shall be submitted to the competent authority for reference purpose after it.

Article 6

An insurer may engage in the following derivatives transactions relating to investment in domestic securities specified in Article 146-1 or loans in Article 146-3 of the Act for hedging purposes:

1. Call (put) warrants traded by Taiwan Stock Exchange Corporation or GreTai Securities Market;
2. Futures trading contracts traded on Taiwan Futures Exchange Corporation (TFEC) and futures trading contracts traded on foreign exchanges through collaboration agreements entered into by TFEC and foreign exchanges;
3. Such derivatives referencing to various underlying instruments besides those in the preceding two subparagraphs which domestic and foreign financial institutions meeting the following requirements are permitted to trade with or for customers according to law:
 - (1) Domestic financial institutions with their risk-based capital ratio, ratio of regulatory capital to risk-weighted assets, regulatory capital adequacy ratio, or the percentage accounted for by adjusted net capital in the total amount of customer margins required for the open positions of futures traders meeting regulatory criteria.
 - (2) Foreign financial institutions with BBB+ equivalent or above credit rating suggested by foreign credit rating agencies in the immediately preceding year.

Article 7
