Article 2

Any foreign issuer that offers and issues securities within the territory of the Republic of China (ROC; hereinafter, "domestic" or "domestically"), or any primary exchange (or OTC) listed company or emerging stock company that offers and issues securities outside of the territory of the ROC (hereinafter, "overseas"), shall act in accordance with the provisions of these Regulations.

Article 3

For the purposes of these Regulations, the meanings of the following terms are as defined respectively:

1. Foreign issuer: a juristic person registered under the laws of a foreign nation, or a financial institution branch meeting the conditions set by the Financial Supervisory Commission (FSC).
2. Primary exchange (or OTC) listed company: a foreign issuer whose issued stock is not listed for trading on an overseas securities market at the time it is initially approved for exchange-listed or OTC-listed trading by the Taiwan Stock Exchange Corporation (TWSE) or the Taipei Exchange (TPEx) respectively.
3. 6. 8. Sponsor issuance: an act whereby a foreign issuer, acting in accordance with the terms of a deposit contract, assists in administering the issuance of TDRs and provides financial information in accordance with contractual stipulations.

9. Effective registration: a foreign issuer registering a planned offering and issuance with the FSC by duly filing all required documents, with the registration to automatically become effective after a certain number of business days have elapsed from the date the filing documents are received by the FSC and any FSC-designated agencies, unless the required content of the filing documents is incomplete or supplementary explanations are necessary to safeguard the public interest or the FSC has rejected the filing documents.

10. Business day: a trading day in the securities market.

Article 4

To offer and issue securities, a foreign issuer shall file for effective registration with the FSC, submitting all the relevant documents, after having obtained a consent letter from the Central Bank.

If, from the date of the balance sheet of the financial report submitted by a foreign issuer filing to offer and issue securities until the time of effective registration of the filing, there occurs any event that has a material impact on shareholders' equity or the prices of securities under Article 36, paragraph 3, subparagraph 2 of the Act, the foreign issuer shall publicly announce the event and report it to the FSC within 2 days from its occurrence. In addition, the foreign issuer shall, according to the nature of the event, provide an opinion from a relevant expert, and obtain from the attesting certified public accountant (CPA) a statement regarding the impact of the event on the financial report, and submit the opinion and CPA statement in a report to the FSC.

From the date the FSC and FSC-designated agencies receive the filing documents until the date of effective registration, the foreign issuer may not state or issue any financial or business forecast information to any specified or unspecified person, except for information issued pursuant to statutes or regulations. If the issuer publicly issues any information that is inconsistent with the filing documents, it shall amend the relevant materials and submit them to the FSC.

If there is any change in the particulars subsequent to effective registration, the amendment shall be registered promptly with the FSC.

Article 5

Where a foreign issuer registers a planned offering and issuance with the FSC by duly filing all required documents, the registration will automatically become effective after 12 full business days from the day on

which the filing documents were received by the FSC and any FSC-designated agencies. However, the effective registration period shall be 7 business days if the foreign issuer is conducting one of the cases listed in subparagraphs 1 to 5 below; the effective registration period shall be 3 business days if the foreign issuer is conducting a case listed in subparagraph 6 below:

1. A case of a primary exchange (or OTC) listed company or emerging stock company publicly offering and issuing overseas straight corporate bonds, or issuing employee stock warrants or new restricted employee shares.
2. A case of a foreign issuer that has already duly issued stock and files, through the TWSE or TPEx, a primary exchange listing or primary OTC listing contract with the FSC for its stock, and subsequently conducts a public sale of new shares issued to effect a cash capital increase before the initial exchange listing or OTC listing.
3. A case of a foreign issuer that files, through the TWSE or TPEx, an exchange listing or OTC listing contract with the FSC for its sponsored issuance of TDRs, and subsequently conducts a public sale of TDRs before the initial exchange listing or OTC listing.
4. A case of a secondary exchange (or OTC) listed company that makes a domestic secondary public offering of stock or sponsored issuance of TDRs using shares that have already been issued and are held by shareholders.
5. A case of an emerging stock company issuing new shares for a cash capital increase without conducting a public issue.
6. A case of a foreign issuer publicly offering and issuing domestic straight corporate bonds.

The FSC may suspend an effective registration where the registration materials submitted by a foreign issuer are not complete or have not been completely filled out, or where it is necessary to do so in order to safeguard the public interest.

Where a foreign issuer submits incomplete registration materials or fails to fill out its registration materials completely and acts on its own to rectify such insufficiency before the FSC issues notification of the suspension of effective registration, the registration shall become effective after the effective registration period specified in paragraph 1 herein has elapsed from the day on which the materials rectifying the insufficiency were received by the FSC and any FSC-designated agencies.

Where a foreign issuer registers the offering and issuance of depositary receipts or stocks and a subsequent change in the issue price prompts it to submit amended registration materials to the FSC and any FSC-designated agencies prior to the occurrence of effective registration, the registration will still become effective within the effective registration time period set forth under paragraph 1, and the provisions of the preceding paragraph shall not apply.

After receiving notice of suspension of effective registration, a foreign issuer may submit further materials to rectify the cause of suspension; if the FSC does not then reject the registration or notify the registrant to effect further rectification, the registration shall become effective after the effective registration period specified in paragraph 1 herein has elapsed from the day on which the rectified registration materials are received by the FSC and any FSC-designated agencies.

After the FSC suspends an effective registration, if the foreign issuer fails, within 12 business days from the day on which it receives a letter notifying it of said suspension, to act in accordance with the provisions of the preceding paragraph to apply for lifting the suspension, or it applies for lifting of the suspension but the cause of suspension has not been eliminated, the FSC may reject the registration.

Article 6

Article 4 of the Regulations Governing the Offering and Issuance of Securities by Securities Issuers shall apply *mutatis mutandis* to circumstances under which a foreign issuer may not offer and issue securities.

Article 8

When a primary exchange (or OTC) listed company conducts a case under Article 6, paragraph 1, subparagraphs 1 to 3, or an emerging stock company conducts a case under Article 6, paragraph 1, subparagraphs 3 or 6, the FSC may reject the filing if any of the following circumstances exist:

1. The present plan for the offering and issuance of securities is unfeasible, unnecessary, or unreasonable.

However, this provision does not apply if the funds to be raised will be used to purchase real estate, plants, or equipment, and there is a concrete fund raising plan evidencing the need to raise the funds.

However, this restriction does not apply to an issue of new shares for cash capital increase that are to be sold in the public sale prior to an initial exchange or OTC listing.

15. As the FSC otherwise deems necessary to protect the public interest. When a foreign issuer conducts a case under Article 5, paragraph 1, subparagraph 2, the provisions of subparagraph 7 of the preceding paragraph need not apply; if the underwriter evaluation report clearly states the feasibility of the capital allocations and the reasonableness of the expected benefits of the present plan for offering and issuance of securities, then the provisions regarding the necessity of the plan, as set out in subparagraph 6 of paragraph 1 of the preceding article and in subparagraph 1 of the preceding paragraph, need not apply.
