Article 2

The shareholder services referred to in these Regulations include the following affairs:

6. Affairs regarding printing of stock certificates by a third party.
7. Shareholder's inquiry or other affairs related to stocks required by government regulations.
8. Other shareholder services approved by the Financial Supervisory Commission (hereinafter referred to as "this Commission").

Article 3

A public company (hereinafter referred to as "company") may engage a third party to handle its shareholder services. Such parties shall be limited to integrated securities firms and to those banks and trust enterprises that are permitted by law to handle shareholder services for others.

To assist companies to successfully convene shareholders' meetings, companies limited by shares meeting the following conditions also may be engaged to handle matters in connection with shareholders' meetings:

1. have paid-in capital of not less than NT\$200 million;
2. shareholders operating securities firm business under the Act hold an aggregate of more than 50 percent of the total number of the issued shares of the company, and any individual securities firm holds no more than 10 percent of the total number of the issued shares of the company;
3. at least one-third of the directorships of the company are held by independent directors;
4. personnel and the internal control system comply with the requirements of Articles 4 and 6.

In handling shareholder services, the company, or the institution engaged by the company to handle such shareholder services (hereinafter referred to as a "shareholder services agent"), shall pay attention to upholding the rights and interests of the shareholders and the security of securities transactions.

If a company whose stock is listed on the stock exchange or traded on the OTC market handles its own shareholder services, its personnel, facilities, and internal control system shall comply with the requirements of these Regulations.

During the period in which the company under the preceding paragraph engages a shareholder services agent to handle its shareholder services, it may not revert to handling those services in-house, with the exception of notifications for and issuance of cash dividends and capital increase shares for employees, directors, supervisors, and any shareholders holding more than 10 percent of the total shares of the company. When carrying out the above operations, the provisions of Articles 4 and 5 do not apply with respect to the employees carrying out the operations and the facilities used.

A company applying for the first time for its stock to be listed on the stock exchange or to be traded on the OTC market shall, before the stock is so listed or traded, publicly announce and report the name and business location of the unit handling the company's shareholder services to the stock exchange and the OTC securities exchange for record and also notify the centralized securities depository enterprise.

For a stock that is listed on the stock exchange or traded on the OTC market, when the unit handling the company's shareholder services changes its business location, it shall publicly announce and report the fact to the stock exchange and the OTC securities exchange within three days from the decision, and shall also notify the centralized securities depository enterprise. A shareholder services agent that is engaged to handle

shareholder services for a company with a stock listed on the stock exchange or traded on the OTC market shall also be required to make the same public announcement and report when it changes its business location. If a company is not listed on the stock exchange or traded on the OTC market and its stock certificates are in the custody of a centralized securities depository enterprise, or it has not printed stock certificates and its stocks are registered with a centralized securities depository enterprise, then prior to delivering the stock certificates into custody or registering the stocks, the company shall notify the centralized securities depository enterprise of the name and business location of the unit handling its shareholder services; when the company changes the agent handling its shareholder services or there is a change in the business location of the unit handling its shareholder services, it shall notify the centralized securities depository enterprise within three days after the decision.

This Commission or an institution designated by this Commission may examine the shareholder services and internal control systems of any organizations handling shareholder services.

Should any dispute occur over law or regulation or any other uncertainty arise with respect to the handling of shareholder services business, the above-stated designated institution may call together concerned bodies to deliberate and prepare an opinion on the handling of such matters, and submit it via letter to this Commission.

Article 3-1

A company referred to in paragraph 2 of the preceding article shall submit to an institution designated by this Commission relevant documents evidencing that it meets the conditions. It may not accept an engagement to handle matters in connection with shareholders' meetings until after the institution has reviewed the documents and forwarded them in a report to this Commission for recordation.

This Commission or an institution designated by this Commission may from time to time inspect the qualifications of a company referred to in the preceding paragraph, and the company may not refuse inspection. A company that refuses inspection shall be deemed unqualified, and shall be prohibited from accepting any engagement to handle matters in connection with shareholders' meetings for a period of three years. If upon inspection a company is found to be unqualified in any way, and fails to make supplementations or corrections within a deadline upon being notified to do so by this Commission or an institution designated by this Commission, it may not accept any engagement to handle matters in connection with shareholders' meetings until such time as it has made the supplementations or corrections.

When there is any change to the paid-in capital, or to a securities-firm shareholder, independent director, or executive or deputy executive officer, or any amendment to the internal control system, of a company referred to in paragraph 1, the company shall report to an institution designated by this Commission within five days after the change or amendment.

If a company fails to comply with the preceding paragraph, or fails to make supplementations or corrections within a deadline upon being notified to do so by this Commission or an institution designated by this Commission, it may not accept any engagement to handle matters in connection with shareholders' meetings until such time as it has made the supplementations or corrections.

Article 3-2

A company whose stock is listed on the stock exchange or traded on the OTC market may not make a change to handling its shareholder services in-house once those services are outsourced.

Article 3-3

When a company whose stock is listed on the stock exchange or traded on the OTC market terminates the engagement agreement with its shareholder services agent to handle its shareholder services, or the engagement agreement is terminated by its shareholders services agent, or when, by

order of this Commission, it must engage another shareholder services agent to handle its shareholder services, and it therefore makes a change in its shareholder services agent, the company shall in each case do so through the passage of a resolution by the board of directors, and after entering into an agreement with the new shareholder services agent, shall report the matter to the institution designated by this Commission for recordation. When a company has made a change in its shareholder services agent pursuant to the preceding paragraph, then within three days, calculated from its receipt of the letter indicating recordation by the institution designated by this Commission, the company shall report the change to the stock exchange or the OTC securities exchange and publicly announce it. The preceding two paragraphs shall apply mutatis mutandis to the company under paragraph 1 when it makes a change from handling its own shareholder services in-house to outsourcing them, or when, by order of this Commission, it must outsource those services, and it therefore engages a shareholder services agent to handle them.

Article 3-4

When a company whose stock is listed on the stock exchange or traded on the OTC market handles its own shareholder services, if it is deemed likely by any shareholder who has held 3 percent or more of the total issued shares of the company for a continuous period of one year or more, or by the Securities and Futures Investors Protection Center, that the company's handling of matters relating to shareholders meetings is detrimental to shareholder rights and interests, then that party, 10 days prior to the first day of the book closure period, may apply to the institution designated by this Commission to have the matters relating to the upcoming shareholders meeting handled by a shareholder services agent.

The company of the preceding paragraph, upon its receipt of the letter of approval from the institution designated by this Commission, and within the deadline specified by that institution, shall engage a shareholder services agent to handle matters relating to the upcoming shareholders meeting, and shall submit the agreement entered into with that shareholder services agent to the institution designated by this Commission for recordation.

When the company fails to proceed as specified in the preceding paragraph, the institution designated by this Commission shall appoint a shareholder services agent to handle matters relating to the upcoming shareholders meeting. The centralized securities depository enterprise shall deliver the list of stock owners to the newly appointed shareholder services agent within 3 days from the first day of the book closure period.

Fees for the handling of shareholders meeting matters by the shareholder services agent appointed pursuant to the preceding paragraph shall be borne by the company.

Within 3 days after its receipt of the letter of paragraph 2 indicating recordation, or the letter of paragraph 3 appointing a shareholder services agent, the company shall report the matter to the stock exchange or the OTC securities exchange and publicly announce it, with a copy to this Commission.

Article 3-5

If a company whose stock is listed on the stock exchange or traded on the OTC market handles its own shareholder services or engages a shareholder services agent to handle shareholder services for it, the company or the shareholder services agent, as the case may be, shall be subject to evaluation by the institution designated by this Commission at least once every three years.

If the outcome of evaluation is "fail" and the circumstances are serious or the corrections ordered by this Commission are not made by the specified deadline, this Commission may order the evaluated entity, in the case of a

Unless otherwise provided in these Regulations, a company that will convene a shareholders' meeting with video conferencing shall expressly provide for such meetings in its Articles of Incorporation and obtain a resolution of its board of directors. Furthermore, convening of a virtual-only shareholders' meeting shall require a resolution adopted by a majority vote at a meeting of the board of directors attended by at least two-thirds of the total number of directors.

If a company will convene a hybrid shareholders' meeting within 1 year from the date of issuance of the 4 March 2022 amendments to these Regulations, and it has not yet made express provision in its Articles of Incorporation permitting the convening of shareholders' meetings with video conferencing, it shall obtain approval by a majority vote of the directors in attendance at a board of directors meeting attended by two-thirds or more of the directors before proceeding to convene the meeting.
